SKIDDER BLOCK

Fig. 1906A
LOADING CARRIAGE

Fig. 1906B

The above Skidder Block is used in connection with Lidgerwood Hoisting Engines for logging. It is made very heavy to withstand severe service. The sheaves can be furnished either of cast or manganese steel, and are renewable when worn. Furnished in 11 and 17-inch diameter sheaves, with rigid or swivel eye, and for any size logging rope.

The Loading Carriage is used for handling logs discharged by skidder and loading same on cars.

Special catalogues describing the above and other Lidgerwood logging equipment will be sent on request.

Prices on application.
